

# ***Toronto Community Housing***

***Provide quality housing for low and moderate income households and create community conditions that minimize risk and promote resiliency***

# *community health framework*

- support advocacy on equity and social inclusion
- develop community capacity
  - develop trust
  - mobilize assets and leverage external assets
  - develop communication and problem solving
  - empower tenants to organize and negotiate for services, benefits
- lead, catalyze, convene, participate

# *wicked problems*

- broad disagreement on problem
- broad disagreement on solution
- large number of stakeholders
- constraints change
- solutions come from practice

# *practice on the ground*

- physical improvements
  - building hardening
  - landscape improvement
  - service response
- capacity development
  - collective experience
  - inclusion of neighbourhood voices
- practical collaborative projects
  - community gardening
  - community space

# *practice on the ground*

- youth
  - engagement programs
  - leadership development
  - employment
  
- civic engagement
